

## OUR MISSION

The Space platform aims to educate individuals unfamiliar with Web3, especially those transitioning from Web2, by providing training and resources.

Space will offer opportunities for individuals already knowledgeable about Web3 to expand their skills, such as learning how to create high-quality content, while fostering a community where experienced Web3 users can support newcomers from Web2.

## Core Principles

#### **Uniqueness**

Our platform always strives to offer the user the best Space experience, for this purpose we have built a team that constantly monitors Web3 trends and implements new ideas and suggestions.

#### Openness

All our developments and plans are open to our community. We strive to interact with the crypto community as much as possible

## OUR ECCSYSTEM

What use cases and goals are we focused on?

Burn Burn Baby is first NFT project to burn illiquid NFT on Injective in exchange for high quality NFT from new collection

Goals

Clear the NFT market of scam and illiquid collections

Create a large and engaged community for the future of Injective

Our community has burned 2,400 scam NFTs in the 2 months BBB has been in operation

## THE REPLORER

INJNFTExplorer is community dedicated to NFT on Injective, where you will always find the latest information!
